01

Executive Summary

Integrated Company is a Saudi trading and distribution company whose core focus is bringing high-quality products from Saudi Arabia and the GCC to **Senegal and the wider West African market**. Through our Senegal subsidiary, Integrated Africa Company – SUARL in Dakar, which is owned by Integrated Company (Saudi Arabia), we supply lubricants, fertilizers, petrochemicals and plastic products such as woven sacks, HDPE pipes and HDPE sheets, geosynthetics, and steel reinforcing bars (rebar), backed by end-to-end sourcing, shipping and local delivery. We also sell used heavy equipment and provide equipment rental in West Africa, and supply construction machinery in Saudi Arabia.

Core Business Pillars

GCC Products Distribution – Senegal & West Africa

PRIMARY FOCUS

Sourcing from Saudi and GCC producers and distributing across Senegal and neighbouring West African markets: lubricants, fertilizers, petrochemicals, finished plastic products, geosynthetics and steel rebar, delivered through our Dakar hub.

Industrial Material Supply

Corporate trading of polymers, granular urea and other agri-nutrients, and engine and industrial lubricants for manufacturers, agro-distributors, contractors and fleet operators.

Heavy Equipment Sales & Rental

Sale of used heavy equipment (loaders, excavators, bulldozers, cranes and more) and equipment rental in West Africa, construction machinery supply in Saudi Arabia, and Doosan (Develon) fleets through our strategic West African alliance.

Core Operational Principles

Vision 2030 Support

Growing Saudi non-oil exports by opening new West African markets for Kingdom- and GCC-made products.

Logistical Security

Direct-from-producer supply, shipping and customs handling that protect cargo from the factory to the customer's site.

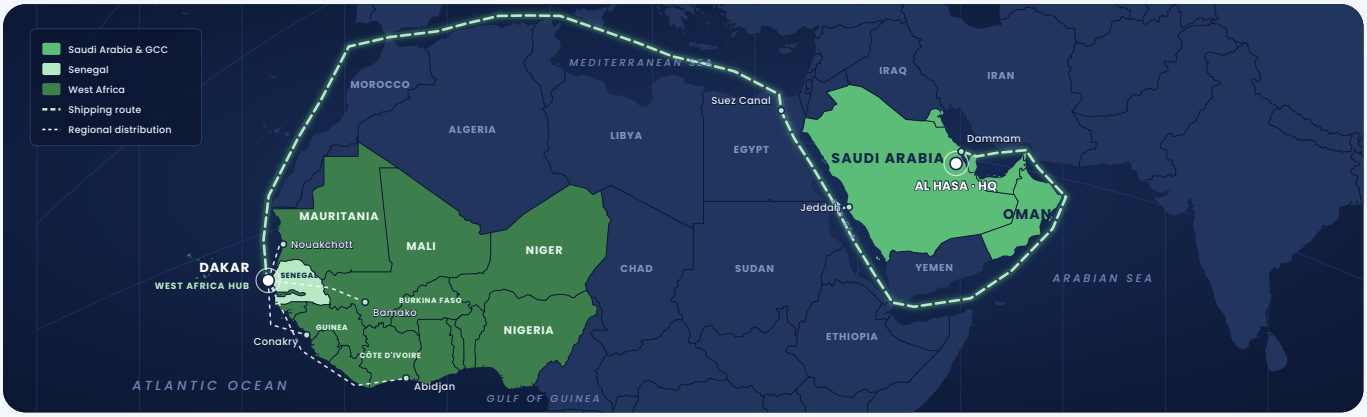

Local Presence

A registered company in Dakar, giving customers local contracting, invoicing, stock and after-sales follow-up.

02

From the Gulf to West Africa

West Africa's growing agriculture, construction, water and manufacturing sectors need a steady supply of competitive industrial products. Integrated Company connects that demand with the large production base of Saudi Arabia and the GCC, using Senegal and the Port of Dakar as a gateway to the region.

How We Deliver

1 — Source
Products sourced from established Saudi and GCC producers, with full quality documentation

2 — Ship
Export, ocean freight and consolidation from Gulf and Red Sea ports

3 — Clear & Stock
Customs clearance at the Port of Dakar and local stock management

4 — Deliver
Delivery to customers in Senegal and onward to neighbouring markets

Why Partner With Us

- **GCC-origin products** with certificates of origin and quality analysis
- **One partner for the whole chain:** sourcing, freight, clearance and delivery
- **Flexible volumes,** from mixed containers to bulk shipments
- **Local company in Dakar** for contracts, invoicing and support

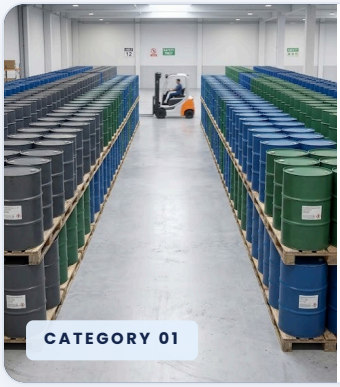

Customers We Serve

- Agro-distributors & farms
- Rice & groundnut sectors
- Water & irrigation projects
- Construction contractors
- Mining operators
- Fleet & transport companies
- Packaging & plastic converters
- Industrial manufacturers
- Government & public projects

03

GCC Products for West Africa

A focused portfolio of Saudi and GCC products, chosen for the needs of Senegalese and West African industry, agriculture and infrastructure.

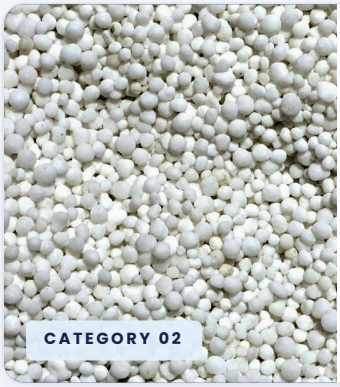

Lubricants

Automotive and industrial lubricants made from GCC base oils, for engines and equipment working in hot, dusty West African conditions.

- Diesel & gasoline engine oils
- Gear & transmission oils
- Industrial & compressor oils
- Hydraulic oils
- Greases
- Coolants & specialty fluids

FOR Transport fleets · Construction & mining equipment · Power generation · Workshops & retailers

Fertilizers

Nitrogen and compound fertilizers from Saudi and GCC producers, supporting higher yields in the region's main crops.

- Granular & prilled urea (46% N)
- NPK compound fertilizers
- Bulk or 50 kg bagged supply
- DAP / MAP phosphates
- Ammonium sulphate
- Seasonal supply planning

FOR Rice · Groundnut · Maize & millet · Horticulture · Agro-distributors & cooperatives

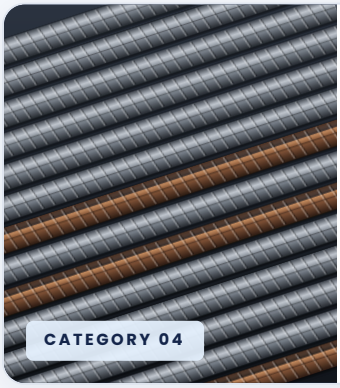

Petrochemicals

Polymers and chemicals from leading Gulf petrochemical producers, for converters and manufacturers in West Africa.

- HDPE, LDPE & LLDPE resins
- PVC resins
- Film, moulding & pipe grades
- Polypropylene (PP)
- Glycols (MEG)
- Technical datasheets per grade

FOR Packaging & film producers · Pipe extruders · Moulding & household plastics · Chemical users

Steel Reinforcing Bars (Rebar)

High-strength deformed steel rebar from Saudi and GCC mills for concrete construction, supplied with mill test certificates.

- Grade 60 / B500B equivalents
- 12 m straight lengths
- Cut & bent to schedule on request
- Diameters 8 – 32 mm
- Coils for small diameters
- Tie wire & accessories

FOR Buildings & housing · Bridges & roads · Ports & marine works · Industrial facilities · Precast plants

04

Plastic Products

Finished plastic products from Saudi and GCC manufacturers, ready for use in packaging, water supply, irrigation and construction projects across Senegal and West Africa.

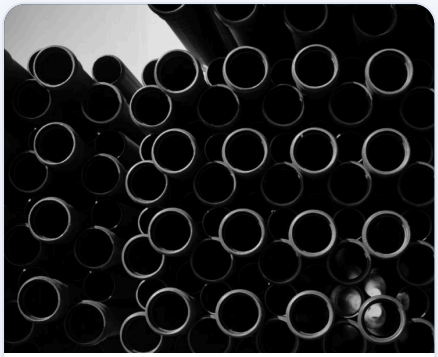

PP Woven Sacks

Strong polypropylene woven bags for bulk and bagged goods, available plain, printed or laminated.

- 25 kg / 50 kg and custom sizes
- Laminated, with or without liner
- Custom printing & branding
- UV-stabilised options

FOR Fertilizer · Rice & grains · Sugar & flour · Cement · Animal feed

HDPE Pipes

Durable, corrosion-resistant polyethylene pipes for pressure and non-pressure systems.

- PE80 / PE100 grades
- Range of diameters & PN ratings
- Coils and straight lengths
- Fittings on request

FOR Drinking water networks · Irrigation · Sewerage & drainage · Cable ducting · Mining

HDPE & LLDPE Sheets

Geomembrane liners made by blown-film and flat-die extrusion. They stay flexible without cracking, and are non-toxic and chemically inert, so they are safe for storing drinking water.

- Excellent UV & chemical resistance
- High puncture resistance & elongation
- Smooth or textured, single or double
- Black, or white/black for cooler surfaces

FOR Water reservoirs & ponds · Landfills · Mining · Canals & irrigation · Construction

FEATURED PRODUCT RANGE

HDPE & LLDPE Geomembrane Liners

Saudi-made geomembrane liners supplied to Senegal and West Africa for water storage, mining, landfill, canal and construction projects.

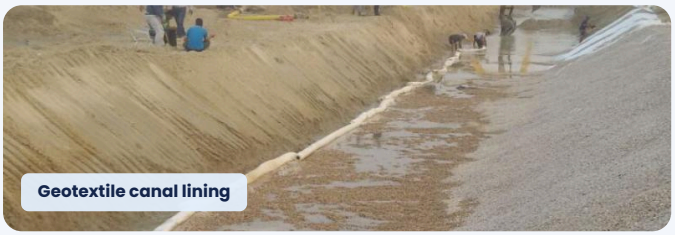

Welding rods: 4 mm & 5 mm, matched to the parent sheet.

LLDPE GEOMEMBRANE	COLOUR
Double Smooth	**Black**
Double Smooth	**White / Black**
Double Textured	**Black**
Double Textured	**White / Black**
Single Textured	**Black**
Single Textured	**White / Black**

05

Geosynthetics & Civil Products

Saudi-made geosynthetics for drainage, soil stabilisation, erosion control and waterproofing. They complement our geomembrane liners and HDPE pipes for infrastructure, mining and landscaping projects in Senegal and West Africa.

Geotextile canal lining

Geogrid road reinforcement

Nonwoven Geotextiles

Polypropylene and polyester, needle-punched and thermally bonded, for a dimensionally stable fabric.

Separation · Filtration · Protection

Cuspated Drainage Sheets

Impermeable, flexible HDPE drainage sheet with high compressive strength and creep resistance.

Foundations · Retaining walls · Tunnels

Geonets

Bi-planar net with intersecting ribs that form drainage channels, laminated to a geotextile filter.

Landfills · Mining · Leak detection

Drainage Geocomposites

3D core of cuspated sheet or geonet, laminated with geotextile on one or both sides.

Structural drainage · Roof gardens

Geogrids

Extruded, punched and stretched PP geogrids for ground reinforcement and improvement.

Roads · Embankments · Soft soils

Geocells

3D cellular confinement system for erosion protection on slopes and channels.

Slopes · Channels · Load support

Salt Barrier & Root Guard

Capillary breaker against salty groundwater rise, and grooved HDPE root barrier to contain root growth.

Landscaping · Road base courses

Polymer Mesh, Gabions & Paving Mats

Diamond-shaped extruded net for concrete crack relief, gabions, paving geocomposites and polyester mats for bituminous membranes.

Concrete slabs · Asphalt overlays · Waterproofing

Application Areas

Landfill & mining · Structural drainage · Roof gardens · Landscaping · Soil stabilisation · Asphalt reinforcement · Marine engineering · Tunnel lining · Slope protection

06

Heavy Equipment: Sales & Rental

Alongside product distribution, we sell used heavy equipment and rent machinery to contractors, mining and infrastructure projects in West Africa, and supply construction machinery in Saudi Arabia.

FOR SALE · WEST AFRICA

Used Heavy Equipment

Inspected, ready-to-work used machines at competitive prices, sourced mainly from the GCC and delivered to Senegal and West Africa.

- Wheel loaders
- Excavators
- Bulldozers
- Backhoe loaders
- Motor graders
- Cranes
- Dump trucks

RENTAL

Equipment Rental

Flexible daily, monthly and project-based rental, with or without operator, for cranes, excavators, loaders and more, so customers get the machines they need without buying them.

- Short & long term
- With / without operator
- Delivery to site
- Maintenance support

Equipment Range · Sale & Rental

Motor Grader

Precise levelling, road grading, ditching and slope preparation.

BLADE 14 FT · 220 HP

Crawler Dozer

High tractive effort for desert earthmoving and site clearance.

49.5 T · BLADE 18.5 M³

Backhoe Loader

Backhoe excavation arm combined with a front loader.

DIG 5.4 M · 105 HP

Heavy Excavator

Deep trenching, rock breaking, bulk excavation and quarrying.

36.8 T · BUCKET 2.1 M³

Strategic Alliance · West Africa

Integrated Company holds a strategic shareholding in an authorized West African distributor of Doosan (Develon) fleets backed by local support, serving West Africa's mining, infrastructure and construction sectors.

Crawler Excavator

Efficient engine, advanced hydraulics and robust undercarriage.

22.5 T · 162 HP

Wheel Loader

Heavy-duty axles and auto diff-locks for rapid material handling.

4.5 M³ · 246 HP

Articulated Dump Truck

6x6 drive and high-tensile body for rugged terrain hauling.

28.0 T · 375 HP

07

Global Network Directory

One group, two hubs: Integrated Company (Saudi Arabia) owns Integrated Africa Company (Senegal), linking sourcing and export in Saudi Arabia with distribution and customer service in Dakar.
